Modified Claim Asserted Claims Ticker Quantity Debto Ticker Quantity Debtor Numbe Other Activity Asserted: 115818.794136 USDC - We had 115818.794136 USDC in our FTX US OTC account - not in our main account. We're not entirely sure which FTX US entity this would be. See attached screenshot we happened to have from month-end accounting 10/31; these balances were not withdrawn as far as we are aware Reason: The Debtors have conducted a review of the filed proof of claim and any related accompanying materials and their books and records. Based on this review, the Debtor submits that the customer asserted cryptocurrency quantities and fiat which does not match the quantities and holdings in such customer's accounts. No liability exists on account of the other activity asserted. Accordingly, the Debtors seek to modify the asserted claim to match their books and records.

Reason: The Debtors have conducted a review of the filed proof of claim and any related accompanying materials and their books and records. Based on this review, the Debtor submits that the customer asserted cryptocurrency quantities and fiat which does not match the quantities and holdings in such customer's accounts. No liability exists on account of the other activity asserted as the modified tickers and quantities above reflect the claimant's holdings as of the petition date. Accordingly, the Debtors seek to modify the asserted claim to match their books and records.
